Dan-

Obviously I'm challenged to use the program. I now have the data. It just took some prompting

from you to get me through it.

Thanks and sorry to bother you.

Larry

No. There is data thru Nov 2014 which should be everything.

I got in now. Thanks. Is the last addition August 2013?

I just got in and re-subscribed. I'm not sure what the problem is. Anything else you can describe or try? If your problems persist, I can put you in touch with our computer SCRIBE guy.

Yes. It says invalid user ID or password.

Hi Dan-

Is this site still active for the Animas data?

Hi Larry,

Per our conversation.

Our data is in SCRIBE which is an access database. I have provided a link to the software and a quick start guide.

http://www.ertsupport.org/scribe_home.htm

The database has a password:

Subscription ID: UAnimas

Password: AN!m@5

When you “file>SCRIBE.net>Subscribe” you will be prompted to put in an ID and password.

Hints

- 1) Use the premade query tables on the left, try “lab samples”
- 2) use the filter button up top to get to the data you need.
- 3) Export button is upper left.

I have extracted the 2012 and 2013 sampling results and attached to this file. Data in SCRIBE goes back to 2009.

Let me know if you need anything else.
